FLAMBERGE RÔTISSERIE SUPRÊME

The Flamberge Rôtisserie Suprême brings the romance of traditional French roasting into the modern luxury kitchen. Crafted with a concave rear wall of solid cast iron, its masterfully engineered chamber channels heat from a powerful gas burner through a vaulted interior, where radiant warmth gently envelops foods as they rotate on three motorized spits. Guided by La Cornue's distinctive system of synthetic wicks, heat rises naturally through the cast iron structure to create exceptionally even roasting, developing remarkable flavor, tenderness, and succulence. Measuring 32 inches square with a minimum cutout requirement of just 30 inches, and requiring no flue, the Flamberge Rôtisserie Suprême integrates seamlessly into virtually any kitchen design. Complete with a porcelain drip tray, two stainless steel spits, and a dedicated fish basket, it is an extraordinary expression of La Cornue's enduring devotion to craftsmanship, performance, and the French art of living.
