LA CORNUE

LA CORNUE PRESENTS A NEW WAY *to* DESIGN AROUND *a* FRENCH ICON

Created exclusively for CornuFé ranges, this tailored cabinetry collection unites the joyful color and Paris-inspired character of La Cornue with the exceptional craftsmanship of John Michael Studio. Designed to complement the rich colors and elegant trims of the range, each cabinet carries its distinctive style throughout the kitchen with coordinated forms, finishes, and architectural detail.

Engineered specifically for the proportions of the CornuFé, the collection transforms the range from a standalone appliance into the centerpiece of a complete kitchen. Premium materials, precision craftsmanship, and refined detailing create harmony between beauty and performance, allowing every kitchen to feel timeless, welcoming, and unmistakably French.

THE CORNUFÉ

RANGE

AT THE CENTER OF IT ALL

La Cornue has always celebrated the richness of France and its enduring culinary tradition, expressing timeless style and refined taste.

The CornuFé Series is available in two sizes, fifteen signature colors, and three trim finishes, with a choice of powerful gas burners or ceramic glass induction cooktops. Grounded yet progressive. Traditional yet contemporary. Built for inspired cooking and crafted with enduring pride.

AS SIMPLE AS...

1

DREAM

Every extraordinary kitchen begins with an idea. Our interactive 3D configurator transforms inspiration into reality, allowing you to explore colors, finishes, cabinetry, appliances, and accessories in an immersive environment. It is an engaging way to imagine every possibility and create a kitchen that is distinctly your own.

or

Reach out to our Design Services at **design@compositionbrands.com** for complimentary cabinetry consultation. Our Design and Engineering team are always ready to assist.

2

SHARE

Your completed CornuFé design becomes the starting point for collaboration with your designer or contractor. Together, every detail can be tailored to create a kitchen that feels naturally connected to the architecture, materials, and personality of your home.

3

INSTALL

From your first selections to final installation, every detail has been considered. Precision-engineered cabinetry and integrated components ensure the completed kitchen comes together with clarity, confidence, and craftsmanship worthy of the vision that inspired it.

CORNUFÉ

KITCHEN COLLECTION

ACCENT

DESIGN

THE VOILÀ WAY TO DREAM

A CornuFé range is designed to be the centerpiece of the kitchen. The CornuFé Kitchen Collection extends that presence beyond the range itself, introducing matching metal cabinetry that complements traditional custom cabinetry while reinforcing the range's distinctive character.

Rather than simply sitting beside the range, each cabinet becomes part of the overall composition. Coordinated proportions, aligned drawer lines, and matching door reveals establish a visual connection that gives the range greater architectural presence while adding functional storage where it is needed.

Whether framing the range with a pair of base cabinets or incorporating upper cabinetry, appliance panels, and furniture throughout the room, every piece contributes to a unified design language. The result is a kitchen that feels intentional, balanced, and unmistakably French.

CORNUFÉ

KITCHEN COLLECTION

SIGNATURE CONFIGURATIONS

Creating a beautifully composed CornuFé kitchen has never been simpler. Designed to pair perfectly with CornuFé ranges, these cabinet compositions unite elegant proportions, purposeful storage, and timeless design in a collection of ready-made layouts.

Even better, exceptional craftsmanship no longer requires an extended wait. The four configurations shown below are inventoried for immediate purchase with your CornuFé range and are available in Matte Black with Polished Brass, Gloss Black with Polished Chrome, Pure White with Polished Chrome, or Stainless Steel with Polished Brass, bringing your dream kitchen home sooner than ever.

COHESIVE DESIGN

Designed as an extension of the CornuFé range, each cabinet features aligned proportions, drawer lines, and door reveals that create the impression of a single composition. The result is stronger visual presence, integrated storage, and a more unified kitchen.

COHESIVE COLOR PALETTE

Available in all fifteen signature CornuFé colors, the cabinetry creates a seamless connection between the range and surrounding furniture. This coordinated palette allows homeowners and designers to carry the distinctive personality of the range throughout the kitchen, creating a unified design statement.

CORNUFÉ CABINET INTERIORS

The CornuFé Kitchen Collection base cabinet interiors are available in Oak and Walnut, providing a furniture-grade foundation worthy of a Parisian atelier. Upper cabinet interiors are offered in the same premium hardwoods or coated stainless steel, allowing you to echo the range's color and trim in a layered, couture-inspired composition.

CORNUFÉ CABINET EXTERIORS

The CornuFé Kitchen Collection exteriors are crafted from stainless steel and finished in either brushed stainless or one of our signature powder coat colors. Doors, drawer fronts, fillers, and panels are designed as a unified system, aligning clean lines and balanced proportions throughout the kitchen. Every element complements the CornuFé range, creating a timeless architectural expression.

CABINETRY

INSPIRED DESIGN, FROM THE GROUND UP

The CornuFé Kitchen Collection begins with base cabinetry that establishes both the function and visual rhythm of the kitchen. From full-door bases and sink cabinets to versatile drawer-and-door configurations, each piece supports the way you cook while complementing the unmistakable character of the CornuFé range. Balanced proportions, refined detailing, and integrated storage create a foundation that feels considered from every angle. More than cabinetry, these pieces establish a kitchen that is balanced, welcoming, and distinctly French.

NOTE: THE CUSTOM CORNUFÉ TOE KICK IS RECOMMENDED AND AVAILABLE WITH CABINETRY.

CABINETRY

INTEGRATED BY DESIGN

The most beautiful kitchens are those where every element belongs. The CornuFé Kitchen Collection extends the language of the range beyond the cooking area, concealing refrigeration, dishwashers, and other appliances within cabinetry crafted with the same attention to detail.

Integrated panels, refined detailing, and uninterrupted sight-lines create a kitchen where function quietly disappears into the architecture. The result is a space that feels calm, unified, and intentionally composed, allowing the design itself to take center stage.

DESIGN WITHOUT LIMITS

For those envisioning a bespoke kitchen, the CornuFé Kitchen Collection extends beyond the cooking area to create a complete architectural expression. From floor to ceiling, every cabinet, panel, and integrated element is designed to work in harmony with the CornuFé range, creating a space that feels composed from every perspective.

Tall cabinetry, appliance integration, and continuous detailing carry the collection's distinctive materials, proportions, and design language throughout the room. The result is more than a coordinated kitchen. It is an immersive environment where craftsmanship, color, and timeless character become one unified vision.

UPPER WALL CABINETS

The upper wall cabinetry provides generous, organized storage while contributing to the architectural character of the kitchen. A selection of door styles allows each composition to reflect your personal aesthetic while maintaining the unmistakable elegance of the CornuFé Kitchen Collection.

ALL METAL

A timeless expression of French craftsmanship, solid metal doors mirror the distinctive finishes and detailing of the CornuFé range, creating a bold statement throughout the kitchen.

GLASS FRONTS

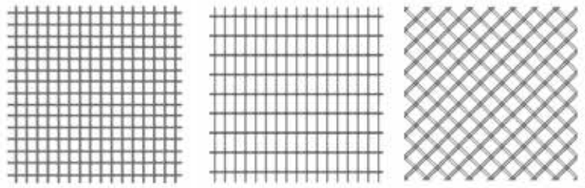

Elegant glass doors introduce openness and light while providing a graceful way to display treasured dinnerware, glassware, and decorative pieces.

MESH FRONTS

Inspired by classic French furniture, finely woven metal mesh introduces texture and depth. The semi-transparent design softly reveals curated collections while balancing display with subtle concealment.
