LA CORNUE

LE CHÂTEAU

The Château Series is the crown jewel of La Cornue.

Made to order exclusively in the Saint-Ouen l'Aumône workshop outside Paris, each range is the embodiment of a specific owner's vision. Available in an unrivaled range of 8,000 configurations, colors, finishes, and measurements, each Château range features La Cornue's patented signature, the vaulted oven first premiered by Albert Dupuy in 1908.

The culmination of three generations of research, innovation, and expertise, the Château Series is available in seven range sizes, from a charming 24" to a stately 71". Complementary cabinetry, hoods, rôtisserie, wall oven, and accessories are also available.

One of the most striking and appealing aspects of the Château Series is the ability to apply any color your heart may desire to your range. If a color exists in the world, it can be applied to one of our inspired designs.

More than fifty brilliant colors are currently offered by La Cornue, but a myriad of new and deluxe colors, curated by some of the industry's most renowned designers, are being offered each year.

The pure materials, experienced craftsmanship, and enlightened innovation of Château ranges offer uncompromising culinary performance that is unsurpassed by any other brand, whether residential or professional.

LE CHÂTEAU MQ MODERNE

BY MATTHEW QUINN

Renowned interior and product designer Matthew Quinn brings his passion for timeless, functional design to the Château Moderne. After specifying La Cornue ranges for more than three decades, Quinn reimagined the iconic Château through a contemporary lens while honoring its extraordinary heritage.

The Château Moderne unites classic craftsmanship with modern design through clean lines, precise alignment, and a refined blend of noble materials inspired by architecture, fashion, and jewelry. Guided by the belief that simplicity is the ultimate sophistication, it removes unnecessary details while introducing a centered logo, substantial horizontal pull, concealed ventilation, and an expanded selection of metal finishes for greater design flexibility.

Confident without overpowering a space, the Château Moderne celebrates proportion, materiality, and purposeful function, creating a range equally at home in traditional and contemporary kitchens.

Available in Château Moderne 180 and 150 models, each range is offered in full-body color, hand-hammered polished chrome, or hand-hammered polished brass with any trim finish. Every model features a distinctive flush backsplash with an optional raised backsplash. The 180 is available with seven versatile cooktop configurations, while the 150 offers eight.
